

## **Child and Adolescent Psychologist and Adult Psychologist**

### **Two roles – hiring now**

#### **Job summary**

Work in a beautiful environment based in the Adelaide CBD with **generous incentives**. As a psychologist in our practice you will be seeing child and adolescents or adults with varying clinical presentations such as anxiety, depression, trauma and if you are interested you can provide assessment services or run group programs.

#### **About Supported Minds Psychology**

We are an Adelaide based practice providing psychological therapy to all age groups. We are looking for experienced and motivated psychologists to help meet Health Partners members' need for access to psychological services.

We love our new consulting rooms in Pirie Street with great views and fantastic soundproofing in a beautiful and comfortable environment. Our clients are referred from GPs, Health Partners and schools and utilise Medicare, private health, NDIS, employee assistance programs and other referral sources.

We offer career progression and the team at Supported Minds are selected to be supportive, respectful, collaborative, inclusive and fun!

#### **Overview of the role**

Supported Minds has many referrals for child and adolescent and adult therapy due to our assessment services and relationship with Health Partners. As a psychologist in our practice you will be seeing clients with varying clinical presentations such as anxiety and depression and if you are interested you can provide assessment services or run group programs.

You will be working alongside clinical psychologists with significant experience in the child and adolescent and adult therapy and assessment. Our partnership with Health Partners provides additional benefits along with a competitive salary (or contractor rates).

#### **About you**

With demonstrated experience with child and adolescent or adult clients, you will ideally hold your Masters in Clinical Psychology from a recognised tertiary institution with eligibility for clinical endorsement by Medicare and AHPRA. If you hold registration in New Zealand you may obtain registration as a psychologist in Australia through the Trans-Tasman Mutual Recognition Agreement. Please contact us for support with this application process.

Candidates without clinical endorsement will also be considered.

### **What we can offer**

- **Sign on bonus**
- **Overseas conference initiative (value \$5,000)**
- *Conference initiative can also be exchanged for help with HECS fees or relocation expenses.*
- Competitive salary (or contractor rates)
- Discount on your private health insurance with Health Partners
- Supported by experienced clinical psychologists who have been working in private practice
- Flexible working hours
- Board approved supervision for clinical endorsement
- Industry best administrative support
- Beautiful offices clients love, which are also very comfortable for therapeutic work.
- End of trip facilities if you want to run, ride or walk into work – you have access to showers, change rooms and an indoor area to store your bike.
- City location with easy access to great coffee, shopping, park lands and events.

Here at Supported Minds you will find a collegial atmosphere where we can support your clinical work but also enjoy the many benefits of working in the city. We have many resources to use for working with children and adolescents and our collection of therapeutic games is extensive.

For further details, please contact Angelique Foran, Clinical Psychologist and Director of Supported Minds for a confidential chat.
