

**Students and Global Engagement
Auckland/Wellington/Palmerston North**

The Office of Student Experience (OSE) guides and supports our taura through their Massey experience. This is achieved by ensuring: students are enabled to achieve; students are engaged with the University and students are empowered to participate in their community and to grow their whole selves.

As a team, we take a strengths-based approach to our work and are committed to a culture of continuous improvement. The Student Wellbeing Service forms an integral part of the OSE, and the team offers a range of services to support well-being during a student's time at Massey.

About the role and working for Massey University

We are seeking an experienced Clinical Psychologist who will provide leadership, clinical supervision, direction, and support to clinical and professional staff working in the Student Wellbeing portfolio. This role will provide advice to wider stakeholders, and student assessment under the Massey University Support and Advice framework.

You can be based on any three of our beautiful campuses at Albany (Auckland), Manawātū (Palmerston North) or Pukeahu (Wellington).

This senior role is part of a multi-disciplinary team focused on the health and wellbeing of students recognising these are key determinants of student success.

We are passionate about student success and strive towards playing our part to support students to be academically successful. If you are interested in contributing to the Wellness of students, want an environment that is challenging and a team that is enthusiastic, supportive and fun please apply now.

Don't miss out on this wonderful opportunity; it is a Monday to Friday role which will leave you plenty of time to enjoy the good life!

We offer a dynamic clinical role with a service review and development component.

What you can offer:

- A minimum of five years of relevant experience, including working with diverse communities, gender and sexually diverse young people
- Knowledge and understanding of the Te Tiriti o Waitangi and its application in an educational and health context
- A current registration and practising certificate as a Clinical Psychologist in New Zealand is required

For enquiries please contact Sam Rullan - Manager of Health Services at s.rullan@massey.ac.nz

Please note that Massey University has confirmed this position as being covered by the Government's COVID-19 Public Health Response (Vaccinations) Amendment Order (No 3) 2021, and therefore requires that persons who take up this position will be required to be doubly-vaccinated for COVID-19 corona virus as a condition of appointment and will need to provide verified proof of double-vaccination before commencing in the position,
