

Collaborative & Proactive Solutions: In-Person Training

with

Dr. Ross Greene, PhD

DR ROSS GREENE

Collaborative and Proactive Solutions (CPS) is the evidence-based model Dr. Ross Greene describes in his influential books *The Explosive Child*, *Lost at School*, *Lost & Found*, and *Raising Human Beings*.

The CPS model has transformed thinking and practices in countless families, schools, inpatient psychiatric units, and residential and juvenile detention facilities throughout the world, and has been associated with dramatic reductions in adult-child conflict, concerning behaviours, disciplinary referrals, detentions, suspensions, restraints, and seclusions.

The model represents a significant departure from discipline-as-usual: it focuses on solving problems rather than on modifying behaviour, emphasises collaborative rather than unilateral solutions, encourages proactive rather than reactive intervention, de-emphasises diagnostic categories, and provides practical, research-based tools for assessment and intervention.

In these sessions, Dr. Greene will provide an overview of the CPS model, along with more advanced coverage of the nuances of assessment and engaging kids in solving the problems that affect their lives.

CPS Introductory Course

A general overview of the CPS model, including key themes, use of assessment instrumentation, and solving problems collaboratively.

CPS Advanced Course

Dive deeper into various facets of the CPS model. Includes extensive use of video examples and ample time for questions and discussion.

Completion of the Introductory Course is a pre-requisite.
