Brief History

This above well-known tauparapara tells the story of the journey taken by Tāne-nui-ā-rangi to Te Tihi o Manono as the highest realm of the 12 heavenly realms to retrieve the three baskets of knowledge. The journey documents the pathways strived towards knowledge and enlightenment, the pursuit of excellence, and the tools needed to live a flourishing and connected life.

The Te Tihi o Manono award was established in 2023 by the National Standing Committee of Bicultural Issues to honour the journey of those who have, through their significant and sustained achievements, advanced mātauranga Māori and Indigenous knowledge in psychology. The Award will be hosted by the New Zealand Psychological Society, the New Zealand College of Clinical Psychologists, and supported by Ngā Pae o te Māramatanga Centre of Māori Research Excellence. The joint hosting of the award recognises the collective aspirations of Māori in psychology and the need to support exceptional achievement by members of both organisations.

Aims of the award

This award recognises the achievement of research and practice excellence in the pursuit of mātauranga Māori in psychology.
