

Psychologist
Permanent, Part Time
Child Services, Community Child Health Team
North and West

Are you an experienced NZ registered Psychologist seeking the opportunity to develop and focus your skills and knowledge of paediatrics? If so, this is an excellent position which offers the opportunity to work with a wide range of paediatric conditions in a supportive team environment.

We are looking for a psychologist with clear strengths in paediatrics, family work, feeding and behaviour, health and disability. Your great communication skills will be an asset working in an interdisciplinary community team that works in partnership with families, health professionals and multiple community agencies.

Our Community Child Health team based at Waitakere Hospital and North Shore Hospital provides a child and family centred, quality service and is focused on the right intervention at the right time to support parents and the family system across the health journey.

We are looking for a psychologist who can work in a team environment, with strengths in establishing and maintaining effective relationships and a real passion for working with children.

In order to be considered for this position you must be registered with the New Zealand Psychology Board.
